LENTEN REFLECTIONS

Each Tuesday during Lent, immediately following morning Mass and the St. Anthony Devotion we will retire to the conference room where Fr. Adam will hold a 20 minute reflection of the upcoming Sunday Gospel. All are invited.

WEEKLY MEDITATION

Mark's Gospel is direct and to the point:

Jesus came to Galilee proclaiming the gospel of God: "This is the time of fulfillment. The kingdom of God is at hand. Repent, and believe in the gospel." (Mark 1: 14-15)

It's time. Maybe you got a late start to Lent, maybe it caught up on you before you were ready. Maybe you've been ready, but you needed that little push - that extra kick - to get started and make a change.

It's not complicated. Is there something that's keeping us from God or one another? Is there something that needs to be different in our words and actions? Does the pattern of our lives need to be altered toward the Lord's goodness? Two simple steps:

- **Repent**
- **Believe in the Good News**

In the first reading the rainbow is a sign from God that never again will the world be flooded with waters of destruction. The covenant with Noah is a built on hope: life is worth saving, worth fighting for, worth dying for, and worthy of the ultimate sacrifice of Christ on the Cross. Once we recognize God's faithfulness, we can more easily let go of past sins and temptations - turning to the one who love's us completely.

Is there anything holding us back from the Lord? Now is a good time to honestly assess our lives, cast out what does not belong, and call upon the grace of Jesus Christ.

After all, he brings Good News - and once we've left our sins behind, we can embrace the joy that flows from Heaven.

Fr. Andrew

RESILIENCE Community Event at the Cathedral

Monday March 5th 6:00 pm Kress Hall

Join with us to become part of the solution to improving the lives of those living in our community!

RESILIENCE: THE BIOLOGY OF STRESS & THE SCIENCE OF HOPE is a one-hour documentary that chronicles the birth of a new movement among pediatricians, therapists, educators and communities, who are using cutting-edge brain science to disrupt cycles of violence, addiction and disease.

"The child may not remember, but the body remembers."

RESILIENCE delves into the science of Adverse Childhood Experiences (ACEs) and the birth of a new movement to treat and prevent Toxic Stress. Now understood to be one of the leading causes of everything from heart disease and cancer to substance abuse and depression, extremely stressful experiences in childhood can alter brain development and have lifelong effects on health and behavior. As experts and practitioners profiled in RESILIENCE are proving, what's predictable is preventable, breaking the cycles of adversity and disease! This free event involves viewing of the documentary and discussion.

CATHEDRAL BOOK CLUB

The Cathedral Book Club invites book lovers to attend the 2017-2018 series. We meet at 6:30 pm in the Kress Hall Library.
